Heliski Valgrisenche:

For over 20 years the team of HELISKI VALGRISENCHE operates in the heliski business. We love skiing, freeriding and have been working at first-class heliskiing locations around the world for decades. Therefore, we know what it takes to organize an awesome heliski trip. Since winter 2017, HELISKI VALGRISENCHE is operating with its own helicopter company SKY Aviation in Valgrisenche. You'll benefit not only from our expertise and knowledge of the areas but also from a maximum of individuality and flexibility. Our highly experienced IFMGA/UIAGM guides will select the best descents according to the snow conditions and your abilities. Always keeping safety first, our goal is to help you fulfill your dreams and expectations.

Snow information:

We are incredibly fortunate to have an extraordinary and reliable bounty of snow in Valgrisenche. Snowfalls from the west and the south reach the area constantly. From December to end of April you can find mostly powder snow. In spring time you can encounter the perfect corn.

Maximize your Heliskiing time with our small groups:

Small groups mean shorter waiting times between runs, so you can make the most of your time on the mountain. By using smaller, more agile helicopters, you can explore further and deeper into our majestic playground. We work with a maximum of 4 participants per mountain guide.
